Todd Kelsey, PhD, of Benedectine University, Illinois, is an Assistant Professor of Marketing. He is administrating our Google AdWords grant along with assisting with other marketing ideas for Dreamchaser, ad we are paying him a \$100 per month stipend.

We have two employees tending to the barn and hay distribution for the horses. Jon has been here over a year and is making \$10 per hour and Cory is making \$8 an hour. Jon is also capable of running equipment.

I have applied for an AHIMSA grant for \$10,000 to help with the six orphaned foals we picked up in South Dakota from a failing ISPMB.
